### Product Description

#### dNTP Set

dNTP Set, PCR Grade consists of 100 mM aqueous solutions of four separate tubes of dATP, dCTP, dGTP and dTTP supplied as ultrapure aqueous solutions and suitable for all molecular biology applications including PCR/qPCR, reverse transcription, DNA labeling and DNA sequencing.

#### dNTP Mix

The dNTP mix is a ready-to-use aqueous solution containing dATP, dCTP, dGTP and dTTP, each at a final concentration of 10 mM. The mix reduces the number of pipetting steps therefore minimizing the risk of errors.

### Applications

For use in PCR, long-range PCR, RT-PCR, cDNA synthesis, primer extension, DNA sequencing and DNA labelling.
